What Makes Us Unique:

The University of Auckland is New Zealand's leading university, and ranked among the top 100 universities in the world. It has been recognised for leading the way in innovation, sustainable development, and employability. With a diverse student body, and course options in over 100 subjects, the University of Auckland offers the opportunity to expand your mind and explore different perspectives. Situated in the heart of the third most liveable city in the world, students are able to live and learn amongst beautiful parks and beaches while still enjoying a dynamic urban lifestyle.

What's Included in Our Programme:

Students can direct enrol in any four courses at the University of Auckland, as long as they have met equivalent prerequisites at their home university. Accommodation in one of our modern, centrally located University residences is guaranteed for study abroad students, and fully integrated with local kiwi students. Study abroad students have full access to University services, such as our Health & Counselling Centre, Sport & Recreation Centre, and Libraries & Learning Services. We also offer a robust campus life, with over 200 student clubs to choose from.
